ISTITUTO DI STUDI PER L'INTEGRAZIONE DEI SISTEMI (I.S.I.S) - SOCIETA' COOPERATIVA KJARNAR EHF	2023	City	Making the digital revolution in urban transport inclusive	Technological barriers risk excluding certain groups from next-generation transport. A new framework aims to tackle this problem.	Urban transformation	https://cordis.europa.eu/article/id/443643-making-the-digital-revolution-in-urban-transport-inclusive
	2018	City	e-Bikes for everyone, soon in a city near you!	Bike-sharing services and infrastructures are increasing in many cities worldwide in a bid to promote the use of bicycles and e-bikes for personal transport, benefiting both individuals and the environment. However, existing e-bike models are primarily designed with commuter riders in mind, neglecting other market segments – a shortcoming researchers from Iceland are working to overcome.	Urban transformation	https://cordis.europa.eu/article/id/223815-ebikes-for-everyone-soon-in-a-city-near-you
KOBENHAVNS UNIVERSITET	2017	City	Green urban infrastructure for better living	Modern living comes with a host of urban challenges related to land-use conflicts, climate change adaptation, demographic changes, as well as human health and well-being. A team of EU-funded researchers joined forces to address these issues through green infrastructure planning.	Urban transformation	https://cordis.europa.eu/article/id/222394-green-urban-infrastructure-for-better-living
NOBATEK INEF 4	2021	City	Solutions, methods and tools empower people in making cities greener	It's becoming increasingly evident that nature can provide solutions to help address societal and environmental challenges. An EU project is raising awareness about such nature-based solutions (NBS) and fostering new collaborative models for their uptake by developing an online knowledge and decision support platform.	Urban transformation	https://cordis.europa.eu/article/id/421776-solutions-methods-and-tools-empower-people-in-making-cities-greener
OPEN GEOSPATIAL CONSORTIUM EUROPE LIMITED	2017	City	Systemic standardisation approach to empower smart cities and communities	Across Europe, there is increasing enthusiasm for the concept of smart cities, promising healthier, inclusive urban living for the benefit of society and environment. EU-funded researchers have advanced a Smart Cities Information Framework to guide cities in optimising access to and sharing of data, to meet their specific needs and become 'smarter'.	Outdoors	https://cordis.europa.eu/article/id/229052-new-approach-to-standards-and-data-use-for-smarter-cities
STICHTING VU	2018	City	Urban adaptation to climate change	Cities have a key role in addressing global problems such as climate change. A European study has provided a systematic global assessment of the different types of institutional innovation for urban water adaptation.	Urban transformation	https://cordis.europa.eu/article/id/223916-urban-adaptation-to-climate-change
UNIVERSITA DEGLI STUDI DI MACERATA	2018	City	Putting the needs and rights of elderly citizens at the heart of urban solutions	The EU faces multiple, interdependent, challenges to achieving sustainable regional development. Making its contribution, GRACE has discovered and developed urban solutions for active and inclusive elderly citizenship.	Urban transformation	https://cordis.europa.eu/article/id/266020-putting-the-needs-and-rights-of-elderly-citizens-at-the-heart-of-urban-solutions
UNIVERSITY COLLEGE DUBLIN, NATIONAL UNIVERSITY OF IRELAND, DUBLIN	2017	City	Integrated tools to better transition to more liveable cities	An EU initiative introduced several novel solutions for sustainable urban living. Partners created several planning tools, documented case studies involving urban green space experiments, and defined mechanisms for adaptive management. In total, 85 solutions were presented in 4 product categories – tools, integrated transition projects, pilots and place-based strategies. The focus was on climate change adaptation, migration, green infrastructure building and urban growth.	Urban transformation	https://cordis.europa.eu/article/id/169969-integrated-tools-to-better-transition-to-more-liveable-cities
WAGENINGEN UNIVERSITY	2021	City	Thinking outside rural-urban boxes	Rural and urban spaces interact in complex ways. The ROBUST project explores how these linkages can be strengthened to maximise mutual benefits.	Urban transformation	https://cordis.europa.eu/article/id/428960-thinking-outside-rural-urban-boxes

WHO	2023	City	National programmes for age-friendly cities and communities: a guide	The main purpose of this guide is to provide direction to national authorities and stakeholders responsible for or involved in forming or sustaining national programmes for AFCC. YourEurope	2024	Technology	Standards in Europe	Standards and other standardisation publications are voluntary guidelines providing technical specifications for products, services, and processes - from industrial safety helmets or chargers for electronic devices to service quality levels in public transport. Standards are developed by private standardisation organisations usually on the initiative of stakeholders who see a need to apply a standard. Provides links to CEN, Cenelec and ETSI.	Information technology	https://europa.eu/youreurope/business/product-requirements/standards/standards-in-europe/index_en.htm
COVENTRY UNIVERSITY	2023	Transportation	Leading the way for gender- and diversity-sensitive smart mobility	Researchers approach the concept of smart mobility by highlighting the need to include equality and diversity in its development.	Information technology	https://cordis.europa.eu/article/id/445592-leading-the-way-for-gender-and-diversity-sensitive-smart-mobility
THE UK HEALTH & ENVIRONMENT RESEARCH INSTITUTE LIMITED	2015	Transportation	Wheelchair-friendly cars	An EU team developed an integrated wheelchair and lift system, including special new chairs, adaptable to a range of popular cars. Manufacture and testing validated the new designs, as well as the automatic software and hardware control sub-systems.	Urban transformation	https://cordis.europa.eu/article/id/164520-wheelchairfriendly-cars
UNION INTERNATIONALE DES TRANSPORTS PUBLICS	2018	Transportation	The bus of the future	Revolutionary changes in the design, operation and maintenance of buses will dramatically alter the way we use public transport.	Urban transformation	https://cordis.europa.eu/article/id/239954-the-bus-of-the-future

VRIJE UNIVERSITEIT BRUSSEL	2019	Transportation	What do we really know about the impact of workplace sustainable mobility planning?	There is a growing gap between research focusing on the environmental impact of urban mobility and studies on transport's role in social inclusion. An EU-funded project is bringing together these two rarely combined dimensions of transport research.	Urban transformation	https://cordis.europa.eu/article/id/386937-what-do-we-really-know-about-the-impact-of-workplace-sustainable-mobility-planning
ALMA MATER STUDIORUM - UNIVERSITA DI BOLOGNA Eurofound	2024	Wellbeing	Elevating well-being in the workplace	We spend a third of our day working. Through well-designed interventions, the workplace can be transformed into a healthier environment.	Community intervention	https://cordis.europa.eu/article/id/449246-elevating-well-being-in-the-workplace
	2024	Wellbeing	Health and well-being at work	Website with information on: Promoting high standards in working conditions, including in the area of health and well-being at work, is a key priority for the EU. The EU Directive on measures to improve safety and health at work seeks to protect workers in their place of work and promote workers' rights in this area.	Community intervention	https://www.eurofound.europa.eu/en/topic/health-and-well-being-work
KATHOLIEKE UNIVERSITEIT LEUVEN	2018	Wellbeing	Addressing job insecurity improves well-being and productivity	If more people in an EU Member State feel secure in their jobs, the benefits can be felt across the economy. A new study on job insecurity sheds light on this important topic and provides recommendations to counter the phenomenon.	Community intervention	https://cordis.europa.eu/article/id/218664-addressing-job-insecurity-improves-wellbeing-and-productivity
UNIVERSITY OF LEEDS	2020	Wellbeing	Advancing knowledge on achieving both sustainable resource use and people's well-being	Lowering our consumption of natural resources is by now a well-recognised need for the health of our planet, but this must be done in a way that still allows us to meet our own needs. Research supported by the Marie Skłodowska-Curie programme has advanced a means to help fulfil both	Urban transformation	https://cordis.europa.eu/article/id/428498-advancing-knowledge-on-achieving-both-sustainable-resource-use-and-people-s-well-being
WHO	2023	Wellbeing	Achieving well-being: a global framework for integrating well-being into public health utilizing a health promotion approach	It brings together the most effective strategic directions and policy orientations from the global health community and serves as an umbrella guide to Member States and partners in their efforts to foster the development of well-being societies for all	Public health	World Health Organization. (2023). Achieving well-being: a global framework for integrating well-being into public health utilizing a health promotion approach. World Health Organization. https://iris.who.int/handle/10665/376200 . License: CC BY-NC-SA 3.0 IGO
WHO	2022	Wellbeing	A toolkit on how to implement social prescribing	This toolkit was created to help introduce social prescribing at the community level. It outlines the steps required to introduce a social prescribing scheme and includes sample materials which can be adapted to the local context. It can be used by implementing organizations, community healthcare and long-term care facilities, mental health and healthcare workers among others. Policy-makers and health and social welfare authorities may also find this resource useful for scaling up community interventions.	Public health	World Health Organization. Regional Office for the Western Pacific. (2022). A toolkit on how to implement social prescribing. WHO Regional Office for the Western Pacific. https://iris.who.int/handle/10665/354456 .
