

**Workshop series | Bridging innovation to service provision**  
***Highlights from NET4Age-Friendly Special Issue: from assessments to digitally supported interventions***  
**27 April 2023 | 14.00-15.15 PM**

**Scientific board:**

*Maddalena Illario, Carina Dantas, Willeke van Staalkuinen, Miriam Cabrita, Joao Apostolo*

**Background:**

The first wave of publications on the NET4 Special Issue have been finalised in November 2022 and published on the International Journal of Environmental Research and Public Health. The special issue ([https://www.mdpi.com/journal/ijerph/special\\_issues/HaWiSBIS](https://www.mdpi.com/journal/ijerph/special_issues/HaWiSBIS)) was focused on Health and Wellbeing in Smart Built Inclusive Societies, and developed around the concepts of Smart Health Age-Friendly Environments, to foster interdisciplinary research approaches that address the challenges of SHAFÉ transformation. Especially interesting have been the contributions combining a high academic standard with practical implementation piloting, experience and scale up, thus providing an opportunity for sharing innovative good practices to make SHAFÉ environments a reality.

➤ **Innovative approaches to map and assess social and health needs: towards a new health value chain**

**Moderators: Joao Apostolo and Maddalena Illario**

**14.00** Welcome and introduction. Maddalena Illario, Joao Apostolo
